

HOLZRICHTERWuppertal
A SPAETER Group Company

Diversity is
our strength.

You can count on us.

Diversity in program

We are a full-line supplier.

Our company has a long history that dates back over 200 years. Originally, the wood judge at the wood court settled disputes among farmers, for instance, over field boundaries. His motto, "Do right and fear no one", has shaped the Holzrichter family and continues to guide us to this day. This tradition is our motivation for the future.

Today, our core expertise lies in the trade of rolled steel, merchant bars, bright steel, tubes, piston rods, cylinder tubes, slit strip, and stainless steel. With our branches in Wuppertal and Schwerte, we have a total of around 30,000 m² of warehouse space. We procure cold and hot rolled as well as surface-finished materials in standard and special grades from certified suppliers. Moreover, with our competent staff, we offer a wide range of services – from consulting to delivery. Diversity is our strength, and as a full-line supplier, we are at your disposal with a comprehensive range of products. See for yourself!

Services

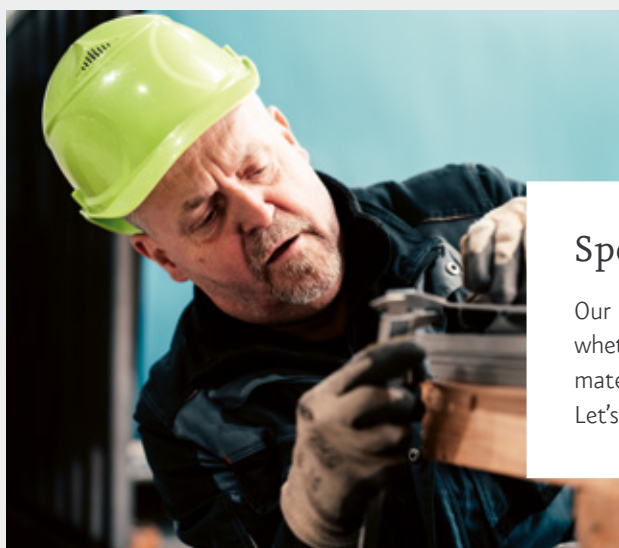

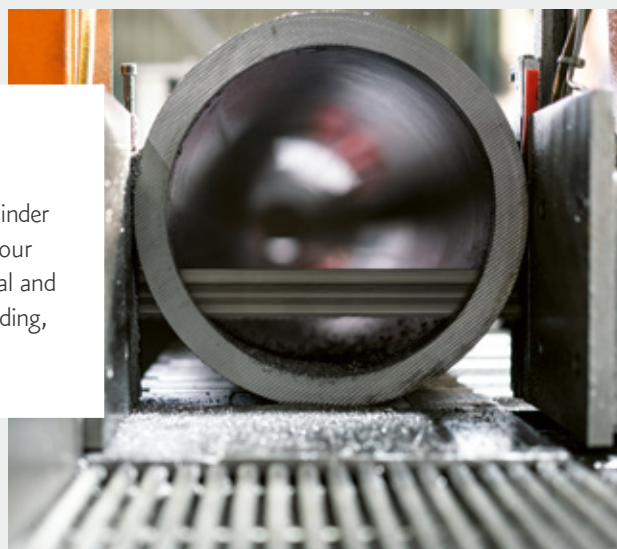

Warehouse / Logistics

We have got a total warehouse space of approximately 30,000 m². Picked, packed, and dispatched on time by our skilled colleagues at the Wuppertal and Schwerte locations, the materials are delivered to you. You can count on us.

Processing

On high-performance saw lines, tubes, merchant bars, cylinder tubes, and piston rods are processed according to your specifications. In addition, we offer slitting, longitudinal and transverse cutting, as well as surface finishing such as grinding, brushing, and foiling of stainless steel sheets.

Special solutions

Our aim is always to provide the highest quality – whether in the form of specialized solutions, detailed material testing, or precisely processed materials. Let's talk about it!

A map of Germany is shown in a light grey tone. Overlaid on it is a larger, semi-transparent green map of Germany, which is divided into its federal states. Numerous small location pins are scattered across the green map, indicating various service locations. One pin in the western part of Germany is highlighted in a darker blue color.

SPAETER Group

A strong partnership.

Thanks to our national and international network with leading producers of rolled steel, stainless steel, tubes, bright steel, merchant bars, piston rods, cylinder tubes, and slit strip worldwide, as well as the resources within the entire SPAETER Group, we can continuously

optimize our purchases and our own physical stocks. This means reliable supply and a wide selection of products for you as a customer. Should an item not be immediately available, we know exactly where to quickly source it. We keep our promise!
