

**SPAETER** Hamburg  
A SPAETER Group Company

The steel trader  
in the north.

Count on it.

Reliable & binding

# We supply the steel for the north.

For more than 100 years, CARL SPAETER Hamburg has been the leading steel trader for trade, commerce and industry in the north. From Scandinavia to the Baltic States – we focus on internationality and are firmly anchored in the region at the same time.

We offer a wide range of high-quality products, coupled with agility and Hanseatic honesty. From profiles to sheets to coils – we have the right solution for the most diverse requirements in our 42,000 m<sup>2</sup> of covered storage space. Thanks to the strength of the CARL SPAETER Group and our promise to always go the extra mile, we are the problem solver you can rely on. We'll shake on it!

## Processing services

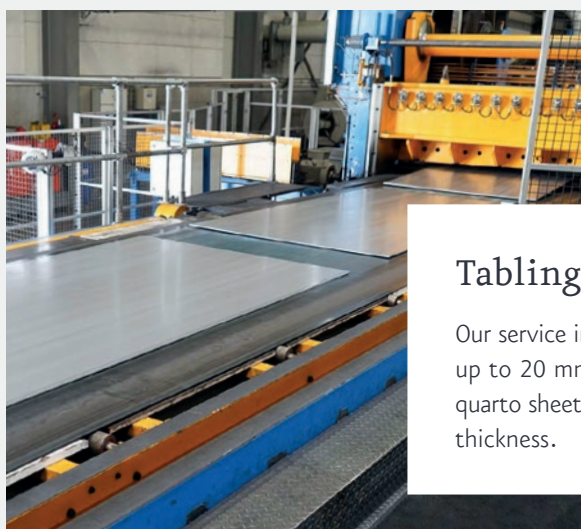

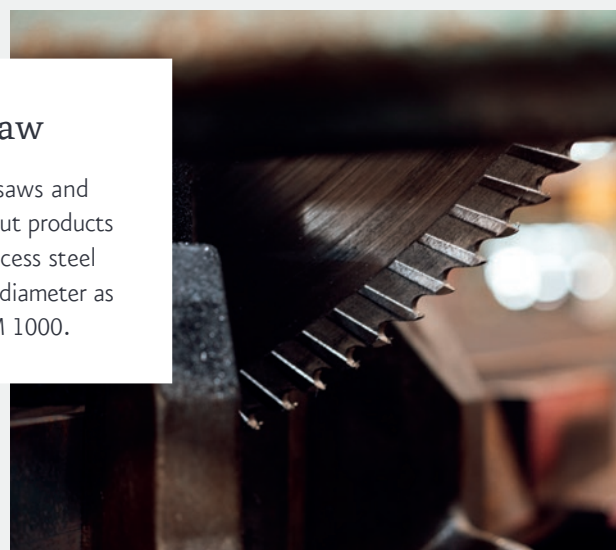

### Sandblasting & primer plant

Since February 2023, we have had a blasting and preservation line for descaling and temporary corrosion protection. This enables the high-quality surface treatment of steel products with a width of up to 3200 mm.

### Band & cold circular saw

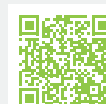

With our band saws, cold circular saws and high-performance circular saws, we cut products to your desired dimensions. We process steel products from 20 mm to 406.4 mm diameter as well as wide flange beams up to HEM 1000.

### Tabling & crosscutting

Our service includes the plaiting of coils up to 20 mm and the cross-cutting of quarto sheets up to 200 mm material thickness.

Efficient & environmentally friendly

# High performant sandblasting system.

The new blasting and preservation-line type KON34/6 HD from Rösler can process sheets up to 3,200 mm wide, profiles up to 21.2 m long and tubes up to 400 mm high. Workpieces weighing up to 12 tonnes. Two colour systems also allow coating with an

additional colour shade. The water-based primer is applied at a speed of up to 4 m/minute. The system is environmentally friendly and energy-efficient. One more reason to choose CARL SPAETER Hamburg. The steel trader in the north.
