SPAETER – a good choice	14

“To us, tradition and progress are not opposites, but our daily business.”

Said and done. For us, it's a promise.

For over 140 years, the SPAETER Group stands for steel and partnership – internationally, nationally and locally. Trust and the will to fulfil our customer's wishes made us one of the 500 top-selling family businesses in Germany. We are confident to do the right things and also do them really good.

Because as a private steel trading company, we are working independently from the interests of steel producers and set a high value on personal contact to our partners. A modern large-scale enterprise with a grounded middle class culture, generalists and specialists at the same time who always find the fitting solution.

We are there when it matters.
You can count on that.

“16 companies in Germany as well as a worldwide network ensure a perfectly compiled product range.”

- 116 employees, thereof 11 apprentices in the commercial and trading sectors
- Specialised in: sectional steel, structural hollow sections, flat products like thin, strip, flooring and heavy plate
- Ultra-modern sawing park for tubes and profiles as well as a saw-drill centre
- Size: > 65.000 sq. m, storage area: > 55.000 sq. m
- Pan-European delivery
- DIN ISO 9001:2015 certified

Quality and precision to the highest perfection.

Ever since 1960, Carl Spaeter Südwest limited company in Karlsruhe – and today also in Regensburg, München and Geislingen – is your trusting and strong partner for all aspects of the subject of steel.

Despite our size and our continuous growth, we cherish the values of the middle class and are proud of our friendly staff, who do their daily work with utmost accurateness and reliability. Here, our staff personally ensures that your order is handled quickly and reliably to meet

your demands. In the process, our extremely high storage capacity guarantees speedy delivery and high flexibility.

Of course, we are happy to offer you implementations and cuts exactly according to your specifications.

“Our promise:
We act for your
success.”

Management board SPAETER Südwest:
Winfried Abach

w.abach@spaeter-karlsruhe.de

Flat products

No matter if engine building, vehicle or bridge construction, in laser or firing operation – he knows flat products for any field of application back to front:

Thomas Schmitt (Department Head)

t.schmitt@spaeter-karlsruhe.de

Sectional steel

Bridges, sports halls or stadiums – nothing works without sectional steel girders. The concentrated competence in the matters of quality grades and customer support has a name around here:

René Schmoranzer (Department Head)

r.schmoranzer@spaeter-karlsruhe.de

Tubes

Tubes stand for longevity, precision and a wide range of capabilities. If you want to know how to professionally store these products, simply contact our specialist:

Ingo Scharf (Department Head)

i.scharf@spaeter-karlsruhe.de

We understand good service:

- Product variety due to a wide and deep range
- Realtime handling of your case of need
- Short delivery times from the facility or our field warehouses
- Networking with well-known suppliers and service providers
- Safety and freedom of action due to the size of the SPAETER company group
- Personal contact person and customer focus

Our service: Steel products with added

Flat products, sectional steel and tubes – steel is more to us than just a fascinating product. It's the basis for that certain extra in terms of customer support. Because service ranks first for us.

Logistics

Sometimes speed is of the essence. Continuous analysis of international markets, an extensive inventory maintenance as well as our high procurement and logistics competence allow us to react quickly and customer-specific.

Product variety and quantity

The more, the better – quantity matters. More than 36,000 t of steel on a surface of 55,000 sq. m spread on the facility in Karlsruhe and two additional warehouses guarantee speedy delivery. And in case we don't have a product in stock, we will get it with a little help from our global network of strong and reliable partners.

Prefabrication

Your product, exactly according to your specifications. No matter if cut to required length, descaling, shop primer (rust-proofing) or material testing – you define the product, we deliver.

Special solutions

“Not available”? Not with us – it's that simple. We avoid problems by finding solutions and our staff always keep their cool even with non-standard enquiries.

Steel for the future.

The history of SPAETER Südwest.

Founded in Karlsruhe as a steelwork company for the construction of refineries. To this day Karlsruhe is the only SPAETER plant with ship connection.

1960

With the takeover of SPAETER Mannheim, SPAETER Karlsruhe turns from a steelwork company into a successful steel trade.

1972

1875

Born in Thuringia, Carl Spaeter writes the first chapter of the SPAETER success story by establishing the company. With 16 locations across Germany, the story continues to this day.

from 1970

Decades of experience and strategic investment in the development of modern technology pay dividends: SPAETER becomes a major dealer of long products.

from 1980

The flat and aluminium semi-finished range completes the product portfolio. SPAETER thus becomes a full-range supplier that customers of the group can rely on at all times.

Progress from the group. The history of SPAETER.

The extension of our fully automatic high rack warehouse regulates precise procurement and delivery.

Almost at the same time, a saw and drill centre with 3 axles has been built up that completes our wide spread prefabrication offer.

2005

With an additional depot, we increased our storage and prefabrication capacity to 55,000 sq. m. The latest sawing park is at our disposal.

And we will keep on investing: An additional storage and prefabrication area is already in the planning stages.

2019

from 1990

1998

2006

Today

SPAETER is and will always be a family company: representing the 5th generation, Irmhild Spaeter becomes an associate of the SPAETER Group.

By increasing its prefabrication competence and by starting the stainless steel business, SPAETER expanded its quality offer.

SPAETER Headquarters are now located at the inner harbour of Duisburg – in a landmarked former granary.

Nowadays, the SPAETER Group is a company with 1,600 employees. Reliable structures and fair actions are guarantors for a successful development – for over 140 years.

Said and done: SPAETER makes the difference.

We offer the best product and the best service for our customers and stand for reliability and solid partnership. We live up to these values every day – non-bureaucratic and passionate, our customers' needs always in mind and with a large number of strong partners.

Cross our heart – our open and authoritative manner, our high process and solution competence as well as our size allow us to live our vision of tradition and future-oriented spirit of innovation. This is what defines us.

Good reasons for SPAETER:

- Passion for steel since 1875
- Quality and precision products
- Wide variety in our product range
- Cutting-edge expert knowledge
- Speedy and reliable delivery

“Communication
at eye level always
leads to the best
solution.”
